

GEMALYN CABANOS, ECE

Implementation Lead | Managed Security Services

[gemalyncabanos@gmail.com] | [+63 968 297 0029] | [Naga City, Philippines] | [linkedin.com/in/gemcabanos](https://www.linkedin.com/in/gemcabanos)

PROFESSIONAL SUMMARY

Cybersecurity professional with over 7 years of experience supporting Managed Security Services (MSS), Security Operations, SIEM, SOAR, and security platform operations. Currently an Implementation Lead overseeing engineering teams responsible for security monitoring, automation, platform onboarding, and operational support across multiple enterprise clients.

Experienced supporting SIEM, SOAR, EDR, Vulnerability Management, NMS, and IT service management platforms (SDP/Ivanti), with additional oversight of automated reporting, advisory generation, ticketing workflows, and operational playbooks. Strengths include team leadership, operational coordination, stakeholder management, and driving quality outcomes for technical teams in fast-paced environments.

CORE COMPETENCIES

- Team Leadership & Operational Coordination
- SIEM / SOAR Platform Management
- EDR / NDR Operations
- Vulnerability Management (VM)
- ITSM Platforms (Ivanti, SDP)
- Stakeholder & Escalation Management
- Correlation Rule Engineering
- Platform Onboarding & Migration

PROFESSIONAL EXPERIENCE

Trends & Technologies, Inc. Feb 2019 – Present [7 yrs]

Implementation Lead

Jul 2025 – Present

Philippines · Hybrid | Additional Responsibility: Optimization and Support Manager (OIC), Apr – Jul 2026

- Oversaw teams responsible for managing and supporting security and infrastructure platforms used by MSS and MIS clients.
- Managed engineers supporting SIEM, SOAR, EDR/NDR, Vulnerability Management, NMS (Site24x7), and ITSM platforms (Ivanti and SDP).
- Ensured supported platforms remained operational, optimized, and aligned with client and business requirements.
- Oversaw continuous tuning and optimization activities to improve detection quality, reduce false positives, minimize alert fatigue, and improve platform performance.
- Managed Incident, Problem, Change, and Service Request activities related to supported security and infrastructure technologies.
- Coordinated platform migrations and service improvements, including the transition from Ivanti to SDP for MSS and MIS clients.
- Oversaw onboarding and operational readiness activities for new clients utilizing NMS and other managed service platforms.
- Served as the primary escalation point for operational issues, ensuring timely resolution of client concerns and service-impacting events.
- Worked closely with Implementation, Engineering, and Operations teams to ensure smooth transition of new services into business-as-usual (BAU) support.

Correlation Engineering Lead

Feb 2024 – Jul 2025 1 yr

- Led the design and optimization of SIEM correlation rules and use cases across multiple security platforms, aligning detections with client security requirements and continuously improving detection accuracy. Collaborated with stakeholders to fine-tune security content, reduce false positives, and enhance threat visibility. Developed SOAR playbooks to automate SIEM-driven incident response, improving SOC operational efficiency and accelerating security investigations.

Senior Correlation Engineer

Apr 2022 – Feb 2024 2 yrs

- Analyzed events to create tailored correlation rules for security data sources including Fortigate, Cisco ASA, Sophos, TippingPoint, Trend Micro, management servers, Active Directory, VPN, and other sources depending on client security infrastructure.
- Mapped rules to defined use cases and presented findings to clients for continuous fine-tuning of existing rules.
- Built playbooks under SOAR, leveraging SIEM-generated alarms to drive automation supporting SOC operations.

Security Support

Feb 2019 – Apr 2022 3 yrs

McAfee SIEM

- Performed data gathering and scrutinized supported and non-supported data sources.
- Led implementation activities in relevance with firewall rules.
- Applied troubleshooting techniques in coordination with TAC support.
- Conducted correlation rule fine-tuning, including creation of new rules in collaboration with clients and refinement of pre-defined rules to enhance monitoring alerts.

BeyondTrust (Privileged Account Management)

- Performed data gathering and implementation, including enrollment of assets and accounts.
- Conducted basic troubleshooting in coordination with asset owners.
- Created Smart Rules to support privileged account monitoring.

Globe Telecom

Mar 2015 – May 2015 · 3 mos

Internship Trainee

- Able to follow instructions of supervisors and co-workers and capable of asking for advice and clarification when unsure.
- Has basic knowledge on MatLab, Multisim and LabView.

EDUCATION

Bachelor of Science in Electronics Engineering — Bicol State College of Applied Sciences and Technology, 2013- 2018

Naga Hope Christian School, 2009-2013

Blessed Lights International Christian Academy, 2003-2009

CERTIFICATIONS

- Rapid7 RTSP - Foundation Certification – Issued Aug 2026
- Certified Product Specialist: Security Information and Event Management (SIEM) – Issued Mar 2023
- EC-Council Certified Incident Handler – Issued Jul 2022
- Siemplify Certified SOAR Operator (SCSO) – Issued Jul 2022
- Siemplify Certified SOAR Analyst (SCSA) – Issued Jul 2022
- Siemplify Platform Fundamentals - Version 6+ (SPFv6) – Issued May 2022
- NSE 1 Network Security Associate – Issued Jul 2020
- Enterprise Security Manager 11.0 Essentials – Issued Apr 2020
- Certified Ethical Hacker – Issued Jun 2019
- ITIL 4 – Issued May 2019
- CompTIA Security+ - Issued Apr 2019
- Electronics Engineer – Issued 2018
- Electronics Technician – Issued 2018
